

More or Less Carrots?

This is a game for 2 players.

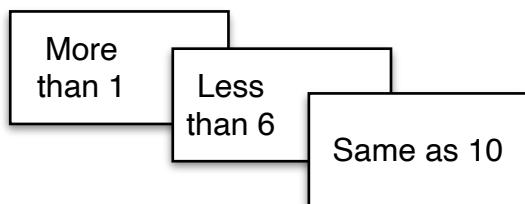

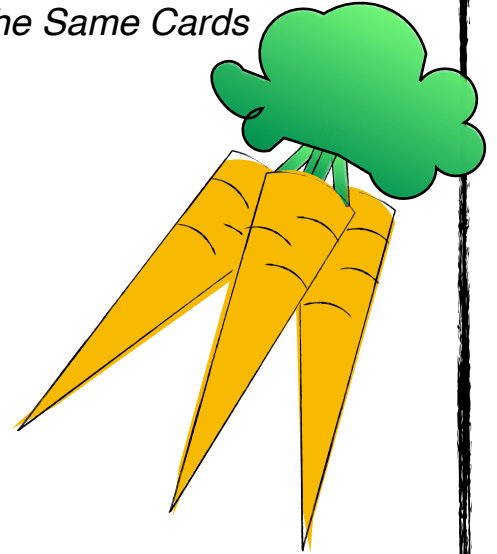

Goal: To match your *Carrot Cards* with the *More, Less, or the Same Cards*

What you need:

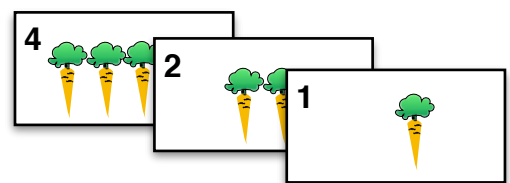

- A deck of *Carrot Cards*
- A deck of *More, Less, or the Same Cards*

What to do:

- Keep the two decks of cards separate!
- Mix up (shuffle) one deck at a time.
- Deal all the *Carrot Cards*, one at a time, to each player.
- Place the *More, Less, or the Same Cards*, in a stack face down, between the two players.
- Turn the top *More, Less, or the Same Card* over and place it next to the stack.
- The first player checks their *Carrot Cards* to see if they have a match:
 - **Yes**, they have a match! Pick up the *More, Less, or the Same Card* and pair it with the matching *Carrot Card* and set the pair aside. Pair only one card even if you have more than one card that matches.
 - **No**, they do not have a match! Play goes to the other player. They may choose to match the current *More, Less, or the Same Card* or turn over the next card in the stack.
- The game continues until all the *More, Less, or the Same Cards* have been played or neither player can match the cards that are left.

•The player with the most matches, wins the game.
