

# What Belongs Together?

**BIG** Socks

**Green** Socks

**Purple** Socks

**Patterned** Socks

Polka Dot Socks

Small Socks

**Goal:** Sort the socks into pairs.

**You will need:**

- A basket of socks

**What to do:**

- Look at all of the socks.
- Find all of the pairs of socks. When two socks look the same they are called a **pair**.
- Group the pairs together.
- After you sort the socks into pairs, find a different way to sort them.

**To think about:**

- Are all of the pairs the same size? Same color? Same pattern? Same material?
- How is each pair of socks that you found alike?
