

Bubble Snake

This is an activity for one or more players.

Goal: Make, measure, and compare bubble snakes

You will need:

- An empty recycled plastic water bottle with the bottom cut off
- A sock
- A rubber band
- Bubble solution
- A bowl
- A yard stick, tape measure, or ruler

What to do:

- Stretch a sock over the cut end of the bottle. Use a rubber band to hold the sock in place.
- Dip the sock into the bowl with bubble solution.
- Create a bubble snake by blowing into the mouth of the bottle.

Ways to play:

- Make a bubble snake as long as your hand, as long as your arm, as long as your leg.
- Try to make a tower out of bubble snakes - how tall is your tower?
- Make and measure three different bubble snakes - which is longest, which is shortest?
- Use different size bottles when making your bubble blowing device.
