

Press Here

Goal: Make your very own *Press Here* book!

You will need:

- Blank paper
- Scissors
- Green, purple, and yellow markers

How to play:

- Start by building the book (two to three pieces of blank paper).
 - Fold a piece of paper from top to bottom (hamburger fold) and then in half.
 - Cut along the lines. Do this to two or three papers.
 - Make an 8 to 12 page booklet by piling the cut paper and stapling them together along one side.
- Use a green triangle, purple square, and yellow circle to make your book.
- Start with one green triangle on the front and a direction for the reader to follow that will cause something to happen on the next page.
- Continue to change and add shapes to the picture while adding a new direction on each page.

To think about:

- How could you include patterns on each of the pages? Could you create patterns with the directions given? Could you create patterns with the shapes?
