

# Order, Order!

**Goal of the Game:** follow the clues to get Lyle and the dogs in the right order.

This game is for one or two players.

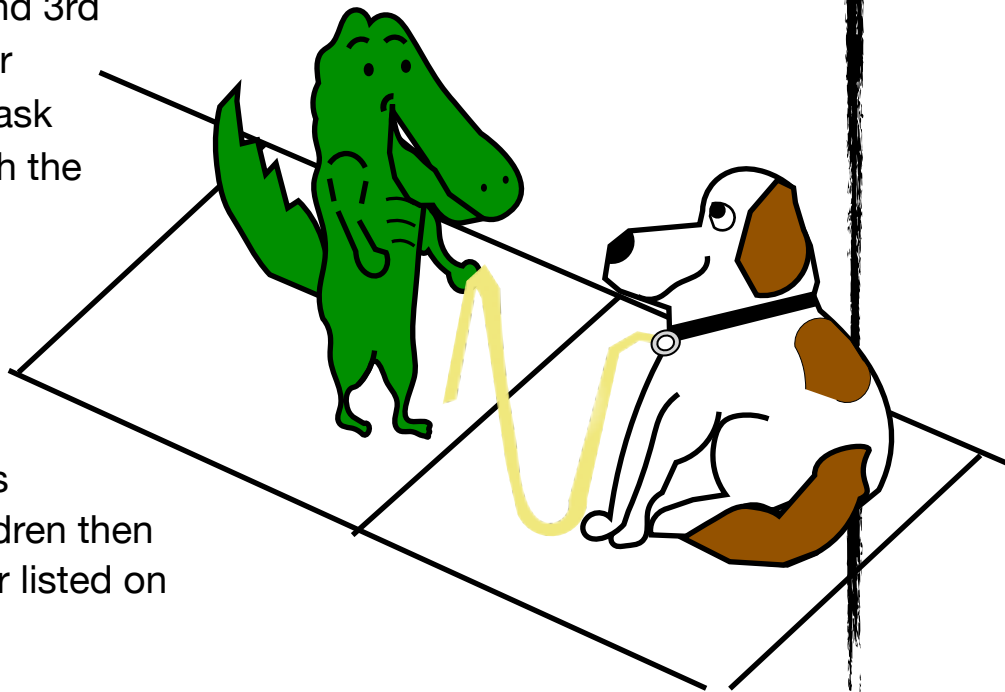

**You will need:** a set of clue cards, a set of dogs, and Lyle, of course!

## What To Do:

- Put the clue cards in a stack face down.
- Pick up a clue card, follow the clues until you think the dogs and Lyle are in the correct order.
- Ask a friend to check your solution - do they agree with you? If yes, pick another clue card and start again. If no, try again.

## Other Ways to Play:

- For younger players, use only first, second, and third places.
- Write 1st, 2nd, and 3rd on sticky notes or index cards and ask the child to match the dog card to the number.
- Ask the children to pick a dog to represent while they put the dogs in order. The children then stand in the order listed on the clue card.

Lyle first in line.  
Sniffy is last.  
Gwendolyn is second.  
Snappy is third.

Morris is first in line.  
Lyle is second.  
Pokey is fifth in line.
