

Foot Match

This is an activity for one or more people.

Goal: To match pictures of a snail, a boy, a dog, an insect, a spider, and a crab with a number, number name or quantity of dots that represent how many feet are shown in each picture.

You will need:

- Pictures of a snail, a boy, a dog, an insect, a spider, and a crab
- Number, word name, and/or dots cards

What to do:

- Place pictures of the snail, boy, dog, insect, spider, and crab face side up.
- Match each picture with a number, word name, and/or group of dots that represent the number of feet shown in each picture.
- If playing with a partner or partners, take turns.
- Play until all of the pictures have been matched with a number, number word, and/or dot card.
- Play again if you like.

• Use the cards to come up with a game of your own. Explain the rules to someone and play your new game!
