# Twenty is...

Goal: Find at least ten different ways to represent twenty by adding each creatures' feet.

You will need:

- Creature feet cards

What to do:

- How many combinations of feet can you find that equal twenty feet?

    - For Example: One insect + four snails + one crab have twenty feet.

Creature	Number of Feet
Snail	One
Person	Two
Dog	Four
Insect	Six
Spider	Eight
Crab	Ten
